## WESTERN AUSTRALIAN MINING.

KALGOORIE, Wednesday.

The Great Boulder Prospector closed up for the month of 1910 tons of ore for 3610 tons. The Kalgoorlie Mint and Iron King had a partial clean-up of 300 tons, yielding 3500 tons. The new state used in the crushing caused a large absorption. The concentrates, which are rich, have been struck for future treatment, as they contain telluride. Broomehampton's battery was formally started to-day. Mr. Dave O'Neill, the manager, says that the mine would pay its way without the Government's aid. The mine is now being worked on a small scale, and the results are awaiting treatment. The mine is now being worked on a small scale, and the results are awaiting treatment.

The "Daily News" says that the offer of New South Wales volunteers for service in India has afforded the liveliest satisfaction in official quarters. It adds that the offer will possibly not be accepted, as the men would arrive on the Indian frontier too late.

## THE MORNING POST WARMS UP THE ACCEPTANCE OF THE OFFER.

LONDON, Sept. 29.

The British camp at Morawi has been accidentally burnt. A large quantity of saddlery and ammunition was destroyed.

The brigades commanded by Brigadier-General Sir B. Blood, Jefferys, and Melkiohn remain beyond Malakand and will not participate in the operations against the Afridis. Brigadier-General Elliot, with three brigades, is marching upon Shabkadi.

## FEELING AMONGST THE MEN.

LONDON, Sept. 29.

No action taken by the Government. The fact is that the men are feeling very little to do with the war in India. The men are feeling very little to do with the war in India. The men are feeling very little to do with the war in India.

## THE OFFER COMES TOO LATE.

LONDON, Sept. 29.

Considerable interest was taken in military circles yesterday as the proposal to despatch troops from New South Wales for active service in India. The chief question asked, however, was what the Government could do. No intelligent person could expect the Government to do anything but to accept the offer.

So far as the volunteers are concerned there is very little to add to what was published yesterday. The best service of both officers and men are directed towards "recruiting."

On children to-day two women were each fined £25, with £10 costs, for gulling-swing.

At Coleraine, yesterday an old woman named Duggan attempted to commit suicide by cutting her throat with a penknife, and endeavouring to open an artery in her left arm. The unfortunate man, who was 67 years of age, said he was tired of life.

A coach accident occurred at Brighton last night. The axle broke, and the passengers were thrown out and a severe shock.

Miss Amy Threlkeld, a girl of 16, who had been in the Town Hall last night was a brilliant success. Miss Threlkeld sang most of the audience to outburst of enthusiasm.

They eagerly looked forward to a vast amount of work, it also being taken in the Senior Eleventh Session, which is to commence in a fortnight's time in view of the strong local feeling a few more prospects of each club should not be available.

Amongst the new men are the batsman, the holder of the record for his past season in electorate cricket with 308, and who played for South Sydney : J. J. On the first day of the match, the batsmen, though not new to the game, were not experienced. The only batsman who had been in the county team was Mr. Muterker who had accepted his election to the Gloucestershire committee only last, but he was a first-class batsman. The other batsmen were Mr. J. Dugdale who was a first-class batsman, Mr. J. Dugdale was also credited with a century—110. Gloucestershire was in a desperate position, taking eight for 4 and 12 for 25. Under these circumstances it is not surprising that the batsmen were not in a position to resist the bowling. The bowling was not particularly large, Brockwell being the only bowler who had been in the county team.
